Dear Professor Craiu,

Re: Congress of the Romanian League against Epilepsy, Bucharest  
November 20-21, 2015

On behalf of the International League against Epilepsy, I wish to forward to all participants of the Romanian ILAE Chapter Congress my heartfelt greetings and wishes for a most successful conference. The Romanian Congress in Bucharest comes at a very significant, time, being the first national gathering of the members of the Romanian League after the approval of the Resolution on Epilepsy by the World Health Assembly (WHA) earlier this year. The WHA Resolution is a true landmark, which mobilizes governments, health authorities, epilepsy professionals, lay organizations and civil society at large to step up much needed actions to improve services and care for people with epilepsy. The International League against Epilepsy expresses deep appreciation to the Romanian government for having openly supported the Resolution and shown a clear commitment to address the needs of the approximately 200,000 people with epilepsy who live in Romania.. At the same time, the League recognizes the many initiatives taken by the Romanian League to improve epilepsy awareness. Knowledge and care. I am certain the Congress will provide a forum to strengthen these initiatives, and to establish further collaborative network throughout the country.

I deeply regret that because of competing commitments I am unable to participate personally in your Congress, but my thoughts are with you. All my very best wishes for a fruitful conference, which I am sure will be a great success.

Yours sincerely
